Work plan

The research grant holder will develop tasks within the European project VAST - VALUES ACROSS TIME AND SPACE, whose main objective is to study the transformation of moral values across space and time, and how these are communicated and perceived by different audiences, capturing, digitising, preserving and analysing of the stories and experiences of those exposed to these values. This person will work under close supervision of Doctor Carla Murteira, with overall supervision of the PI Doctor Sara Graça da Silva. The Portuguese team in the consortia participates in PILOT 3: VALUES IN EUROPEAN FOLKTALES, and is composed of the PI and a team of postdoctoral grant holders and master students working on topics that intersect literature, culture and biophysiological data. The contracted researcher will participate in tasks related to biosignal acquisition and analysis, data collection and data processing management, data quality assurance, and participant's recruitment. The contracted researcher is expected to coordinate with the other members of the team at all times. The contracted researcher will participate in tasks related to scientific research, communication and dissemination activities, collaboration in the writing of scientific publications and organisation of events such as conferences and workshops.
